\* Look through own subfunds only

### PRIIPS/MiFID II

If you need information about this, please contact [office@securitykag.at](mailto:office@securitykag.at).

### Risk profile of fund

The risk profile defines the risk assessment of the fund - one blue box low risk, seven blue boxes very high risk.

### Description

The Value Investment Fonds Klassik is based on the principles of the capital market theory by Markowitz. The Fund's objective is to achieve a stable annual return with a minimum risk by optimizing the asset allocation of the portfolio. Actually the fund invests 30 % in equities (USA, Europe and Japan) and 70 % in fixed income assets, which consist of government bonds or high quality bank obligations, convertible bonds, corporate bonds and emerging market bonds. These asset categories are managed close to the relevant index. Two thirds of the equity portfolio are partly hedged with a certain options strategy (e.g. covered call writing). The fundmanager observes the optimization of the asset allocation. Additionally there are no tactical ambitions to increase performance through market timing or stock-picking on the basis of market projections.

### Important Notification

The document serves to inform the insurance customers and does not replace a comprehensive investment advice or risk information, nor does it make an offer or recommendation to buy, or sale of funds or other products. Any investment is associated with risks. The past performance is not indicative of reliable conclusions on future development of a fund. The return can be reduced as a result of currency fluctuations. Expenses and taxes of the insurance product are not included in the performance calculation and reduce performance. The fact sheet is only available for purchase of an insurance product. The fund used for the insurance product is accredited for direct purchase in Austria only.

The tax treatment of an insurance product is different and depends on the personal conditions and the place of residence of the customer and may be subject to change in the future. Please contact your insurance advisor for more information.
